

Christmas 2018

Amazing Dreams's production...

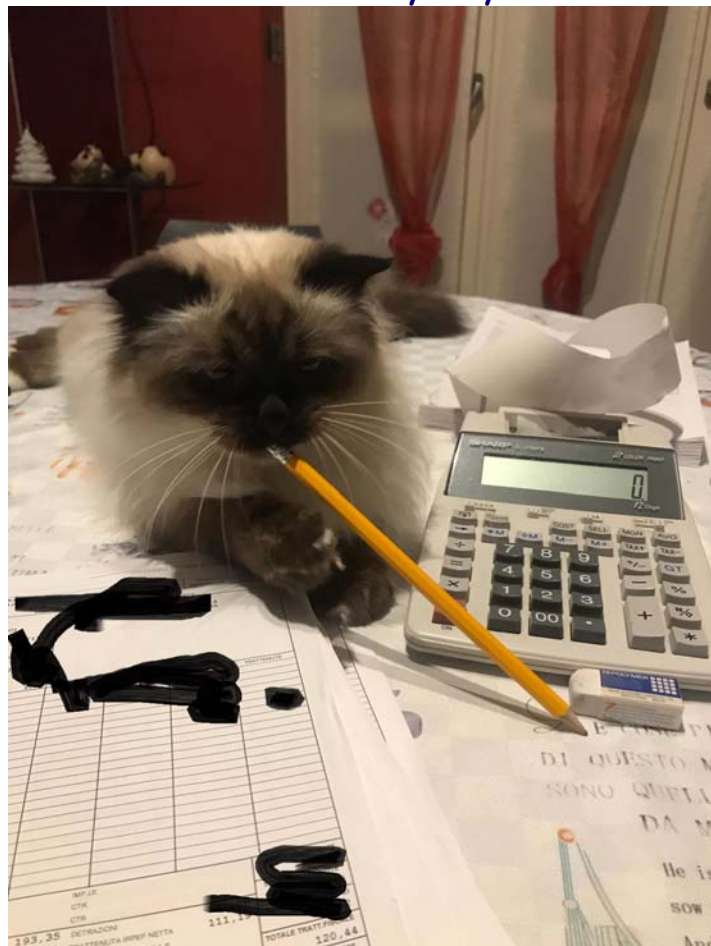

Is coming....

Christmas... Sometimes it takes you behind ...

You've calculated the time but... and also this year you're late with all the preparations

Thanks to Amazon the boxes begin to arrive

Not always properly hidden ...

If you think of everything you still need to do is raise your arms and say I can not do...

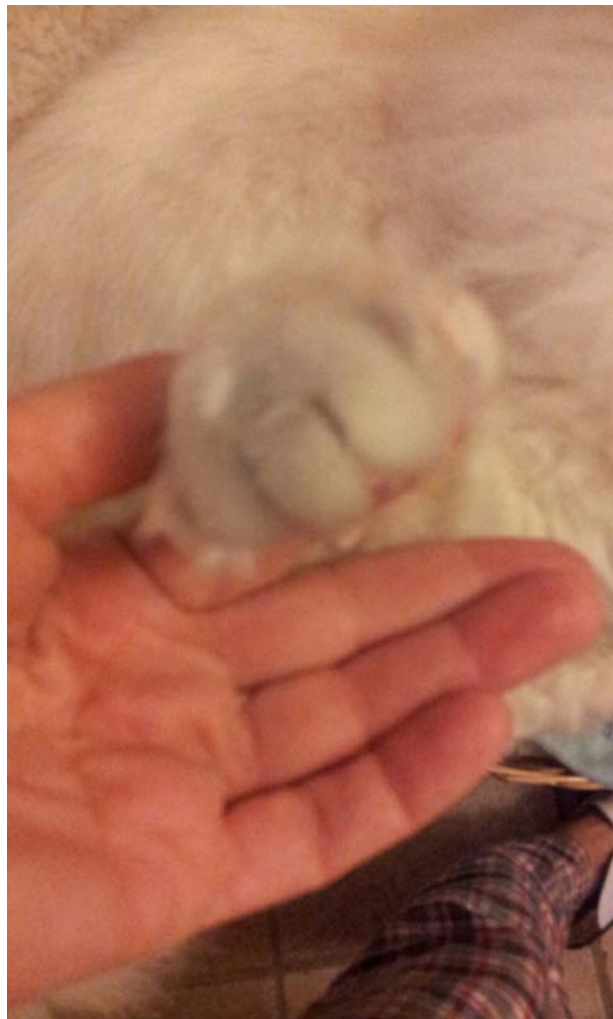

... But Christmas is also this: the frenzy of having to do many things and feel a bit ' a balance between a thousand commitments...

... You have to wrap the presents ...

...but when we have someone to help us...

...it's easier...

... however Christmas is not only to racing for gifts...
Christmas is Magic ...

Christmas is... being together,

To celebrate

To brush up on society games

And share them with newcomers

Christmas is tradition... do the tree with friends

The crib

... Kissing under the mistletoe ...

... Christmas is feel the love in the air

Recognize him with a look

Christmas is... having more time to spend with the people we love

Find a quiet corner to share the time

Because the most beautiful gift remains to share time and thoughts with loved ones...
even to sleep late...

Christmas is "kitchen "

Many lunches and dinners await us at this time
You can feel like a stuffed turkey... gorged by force ...

Smarter people increase working hours to stay in shape

But it is undeniable Christmas is... eat eating eat....!

Christmas is the time to look grandma's recipes

Check that you have all the ingredients

do homemade pasta

Without forgetting the vegetables...

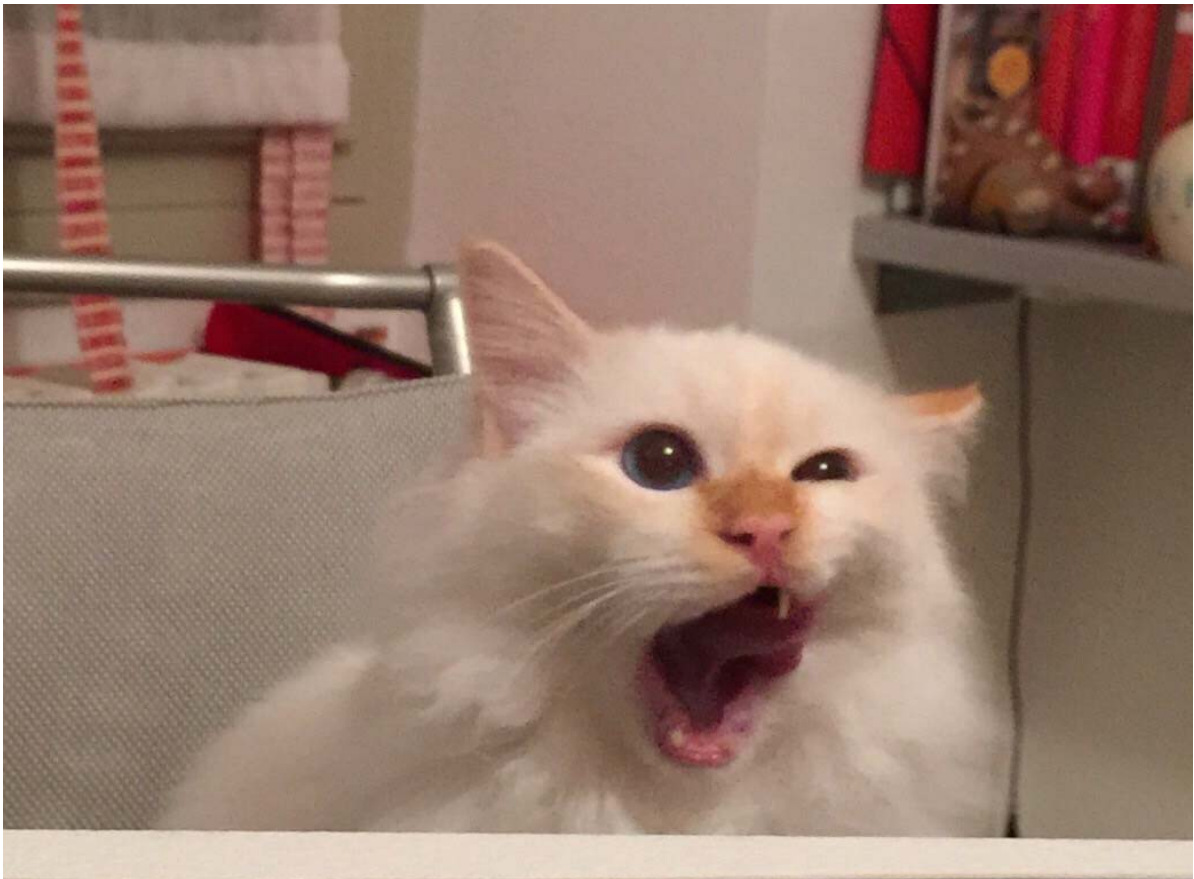

Everything has to be ready to drink

And to eat together

Up to lick mustache

Surely eating well and sharing the joy of being together is one of the most beautiful things of Christmas, and it's a charge and an energy that we always can keep with us! Our wish for this Christmas and for the new Year is that this magic remain with you during whole year... only the magic and not the more kg ;)

Many wishes for Merry Christmas and Happy New Year

From big family AMAZING DREAMS
